AZETS

Implementation of two-factor authentication for Google Authenticator

Secure your account

Due to your access to critical/sensitive data, you need to set up 2-step verification in order to continue using Azets Cozone. Please select one of the methods below to start the setup.

Google Authenticator

Use the Google Authenticator app to get free verification codes, even when your phone is offline.

ENABLE GOOGLE AUTHENTICATOR

1. Log in to https://cozone.azets.com/ with your username and password.

2. Once you have logged in, you will see the view on the left where 2FA will need to be set and all available options. Choose Google for this guide. Puch Enable Google authenticator to proceed.

3. The next step in the process will ask you to enter your password again, regardless of which method you choose. It's the password you use to login to Cozone you write here

4. Push Continue

Enter your password   ✕

Password   ••••••••••••••

CANCEL   CONTINUE

Instructions for Google Authenticator

1.Download "Google Authenticator" to your mobile device from the Google Play.
